15 INITIAL INCIDENT DESCRIPTION / NARRATIVE:  
[The following report is a summary of the events that occurred under case number 2018-59497. Any conversations are paraphrased and the sequencing of events are not exact. For any exact quotes and exact sequencing of events please refer to ICV/BWC, as it was recording at the time of this investigation.

[REDACTED] and [REDACTED] are all roommates and all live at 15 [REDACTED] 22 Ave S.

On 02/17/2018 at approximately 0035 hours [REDACTED] was home alone, sleeping in his bedroom, when he was awoken by three masked men, armed with pistols and a shotgun. The men woke him, screaming at him and holding the firearms to his head. The assailants restrained him by tying only his feet together, using a plastic zip tie, then faced him against the wall. One suspect stayed with him as a guard and the other two left the room and began ransacking the house. The suspect that stayed behind guarding him also began ransacking his room. As the suspect were ransacking the house they traded off duties between guarding him and going rummaging through the house. As each suspect guarded him they placed the firearms to his head and lower back.

After about fifteen minutes all three suspects returned to the room, demanding he tell them where any valuables were then shot him with a Taser. One probe hit him on the right jaw and the other in the back of the right shoulder. The suspects continued to demand money and valuables, spraying him in the eyes with an unknown chemical before departing his room. As the suspects were leaving is room [REDACTED] heard a gunshot, just outside of his room.

[REDACTED] remained in his room out of sheer terror for about ten minutes, before

cutting the zip ties from his ankles and fleeing to a near-by neighbor's house to call 911 because the suspects stole his cellphone.

At 0102 hours uniformed Seattle Police officers responded to [REDACTED]'s call for assistance. When officers arrived [REDACTED] flagged officers down. Officers contacted [REDACTED], who advised officers of the details of the incident, as previously described.

[REDACTED] advised officers that the three suspects were all about 5'10", approximately 190 pounds and were all wearing dark clothing. They all had bandanas covering their faces, exposing only their eyes. Two suspects had beanies on and the third suspect that did not had a buzz haircut. [REDACTED] also advised the suspects all spoke clear English, but appeared to have a subtle [REDACTED] accent to their voices.

Officers responded to the residence, checked the inside for the suspects, but they were not there and appeared to have already fled the scene. As officers checked the house it appeared to have been completely ransacked, having drawers, closets and cabinet doors throughout the residence left open and unsecured. Clothing and property were also tossed about throughout the house and had the appearance of being rummaged through. A K9 officer also attempted to conduct a track, but the results were unsuccessful.

Officers checked the residence and discovered an unsecured window on the northwest corner of the house, which appeared to be the entry point. Just outside of the window was a ladder, which appeared to belong to a construction site directly next to the residence. Officers also discovered the remains of the deployed taser, to include probes, detached wires, a spent cartridge and the confetti that contained the serial number to the cartridge. Officers also discovered several empty handgun cases that were left opened, as well as an empty shotgun gun case, in one of the bedrooms.

Officers also discovered a clearly visible hole in the floor, approximately half an inch in diameter, just outside of [REDACTED]'s room. The hole pierced deep into the floor and the damage associated with it appeared to be consistent with that of a large caliber slug or bullet. There was also slight damage on the walls near the hole, consisting of hash marks, that were facing the same angle as the damage in the hole.

As officers were investigating [REDACTED]'s roommates [REDACTED], [REDACTED] and [REDACTED] all arrived home from work. Officers advised them of the incident and interviewed each for any relevant information. [REDACTED] reported that the empty gun cases officers observed during the security sweep belonged to him and confirmed each had contained a firearm. [REDACTED] confirmed that all his firearms were indeed missing, as each empty handgun case had contained a

semi-automatic pistol and magazines, and the empty shotgun case a 20-gauge shotgun.

██████ reported his laptop had been taken and ██████ reported some jewelry missing. ██████ also reported that the suspects also stole his laptop computer, in addition his cellphone.

Sgt Johnson responded to the scene and screened the incident. The SPD Robbery Unit was notified of the incident and also responded to the scene. When the Robbery Detectives arrived they took custody of the investigation and processed the scene.

Additionally, SFD responded to the scene and treated ██████ for his injuries. His injuries consisted of a small puncture wound to his right lower jaw and right shoulder, where the probes from the taser struck and embedded into his skin, as well as redness to his eyes from the reaction to the chemical he was sprayed with. ██████ advised he believed the chemical to possibly be lighter fluid and explained that the chemical was ejected from a small bottle and left the bottle in a small, thin stream. ██████ advised officers that as the suspect sprayed him in the eyes it appeared as if they were enjoying hurting him and making him afraid, as they were sniveling and laughing as they did it.
